DETAILED ACTION

Allowable Subject Matter

Claims 1-26 are allowed.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patents # 6,714,081 B1 of Xu and # 6,492,874 B1 of Shih, does not teach nor render obvious a circuit that has, in combination with other limitation, a controller configured to select a radio operating mode and a current-mirror circuit coupled to said controller and configured to produce a reference control current as a function of said radio operating mode; neither does it have a current-mirror circuit configured to produce a quiescent reference current in response to a digital control signal; nor does it have a current-mirror circuit coupled to said bias regulator and configured to establish said quiescent components of said driver-stage and output-stage bias currents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents # 6,714,081 B1, # 6,492,874 B1, # 5,241,283 contain some limitations of the claimed invention.
